

NOTIFICATION OF PLANNING APPLICATION AND CONSULTATION WEBSITE

Crosshouse Solar Limited

You are invited to review the website which provides information relating to the planning application for the installation of a solar farm with a 49.9 MW AC output for a temporary period of 50 years, including associated infrastructure and environmental enhancements.

We have developed a website which sets out the proposed development and provides detailed information on the nature of the proposed development.

The website provides interested members of the public with an opportunity to review the planning application and submit comments and feedback via the webform on the 'Public Engagement' page. Please leave any questions you might have about the proposal for the development team on this page.

The website address is:

www.crosshousesolar.co.uk/
